EATING OUT

Coffee shops:

Unflavored coffee does not present a problem, including the various roasts, i.e. French roast, Spanish roast etc. Flavoring always needs a good Hashgacha. Some coffee shops such as Starbucks have the flavoring in a bottle, and one can check for kosher certification on the label. Those that use flavored beans would

need a good Hashgacha on the roasting house. The addition of milk is not a problem beyond Cholov Stam in countries when one can rely on the milk being kosher. Half and Half needs Hashgacha when it contains preservatives. One should drink the coffee in a disposable cup as the mugs used may be used for non kosher hot coffee as well.

Cruise Ships and Hotels

Resorts on occasion advertise Kosher meals with full supervision. In cases where the facility does not include a Kosher kitchen, the hotel is usually happy to provide ample airline-style meals for its guests. These can be heated in the non-Kosher ovens as they are double wrapped for this purpose. In addition, one can order gourmet meals from caterers who specialize in mail order Glatt Kosher meals. These too are double wrapped and sealed to allow heating in a non-Kosher oven. Most of these establishments are most agreeable to provide cup of fruits upon request as well.

Kosher Restaurant or Caterer

One of the difficult decisions that one must make when choosing a Kosher Restaurant or Caterer is how to determine the Kosher standard and what separates one from the next. One of the main determining factors as to the reliability of an establishment will be the level of Hashgacha provided.

There are various types of food establishments and each may need different levels of supervision. The need for Hashgacha will depend on it's being for meat, fish, dairy, Shomer Shabbos owners, non Jewish owners, etc.

Meat restaurants or catering:

In general needs Shomer Shabbos person on site at all times. This will exclude those restaurants that are owned and operated by their non Shomer Shabbos owners and have occasional visits from the Rabbi.

Fish restaurants or catering:

The same as with meat applies. Hashgacha Temidis is needed.

Vegetarian restaurants: The severe issue of insects is prevalent as well as non kosher wine and grape juice being used among the ingredients.

Dairy or pizza restaurants:

These often do not require Hashgacha Temidis. However, as will all of the above, each case may vary as to how much it must be watched.

Yogurt shops:

A common ploy is for the non Jewish or non Shomer Shabbos owner to put signs in front of the machines bearing a Hechscher, claiming to be using a mix from that reliable Hechscher. Obviously this is meaningless, as we cannot rely on such claims.

Ice cream stores: There are franchise stores that must use the company's product and one can assume that they are

doing so as the penalty would be great if they vary. Than there are other types that are allowed to use many ingredients of their own choosing, and will need supervision on each and every store.

Maaris Ayin: Taking a kosher burger into a McDonalds to meet a non Jew who will be eating non kosher would be a classic case of Maaris Ayin. A normal person would have the right to assume that he sees the Jew eating a burger in a non kosher burger restaurant. However drinking water there, or eating something kosher in a hotel continental breakfast would be a problem.

Amusement Parks, Movie Theaters, Sport Stadiums: dry roasted peanuts in the shell do not pose a problem. However, fresh popcorn cannot be used in any of the above locations. Even when the vendor displays a kosher oil being used at this time, we have no way of ascertaining that non-Kosher oil was not used until now. If butter is being used it too may be of a non Kosher origin. The beer and soda are often Kosher.

Take Out: Often this may resolve a situation where one needs to eat in a place that does not have Kosher food on hand. Whether in Alaska or Hawaii, cruise ship or plane, non-Kosher home or hotel, one can always have a gourmet meal on hand with proper preparation. Many reliable kosher food outlets gladly ship food to anywhere in the world, be it a hotel, cruise line or other. Following are some of the reliable ones:

In general, when eating out, one needs to determine with each establishment "does it make sense". We have had many scandals recently in places that could have been looked at better and were not.

This issue is dedicated in the name of **HaRav Avraham Daniel Mordechai ben Miriam Sara. May Hashem grant him a refuah shlemah in the zchus of his being a constant osek b'tzorchai tzibur.**
